Packaging box**

**VFC Product
Packaging box**

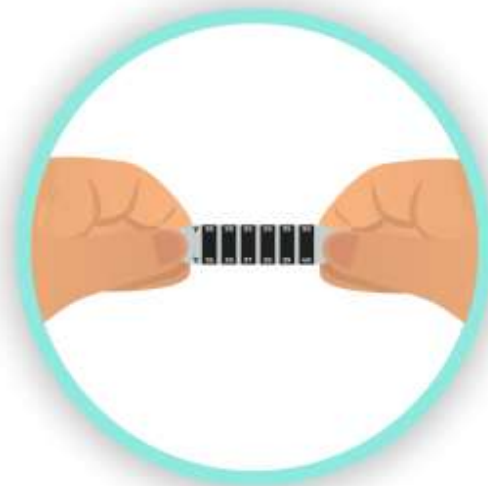

**VTD Product
Packaging box**

Step 01

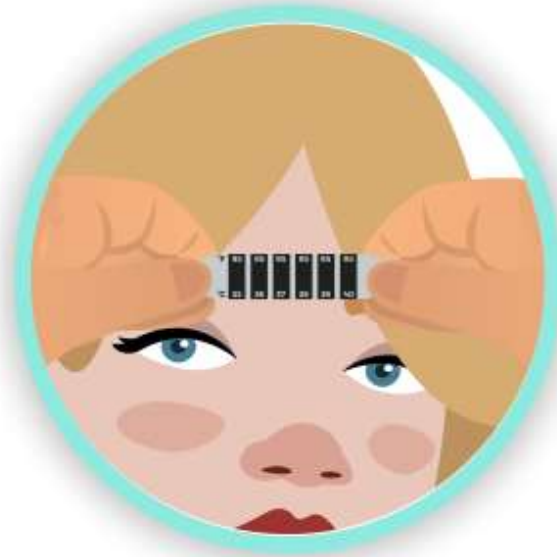

**Strat between 45 minutes to
60 minutes before the sexual intercourse.
Wash your hands with Soap and dry them on a clean cloth**

Step 02

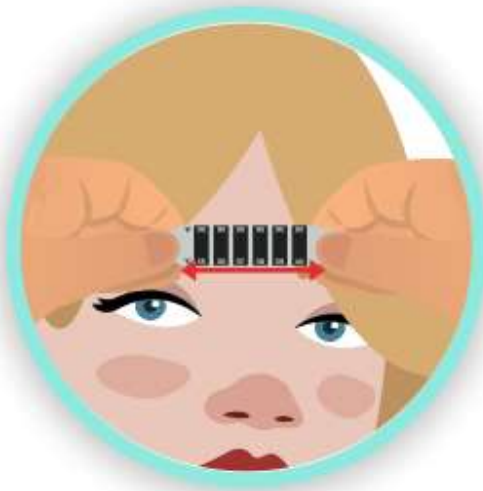

**Take out a single disposable
Thermometer of # VTD Box**

Step 03

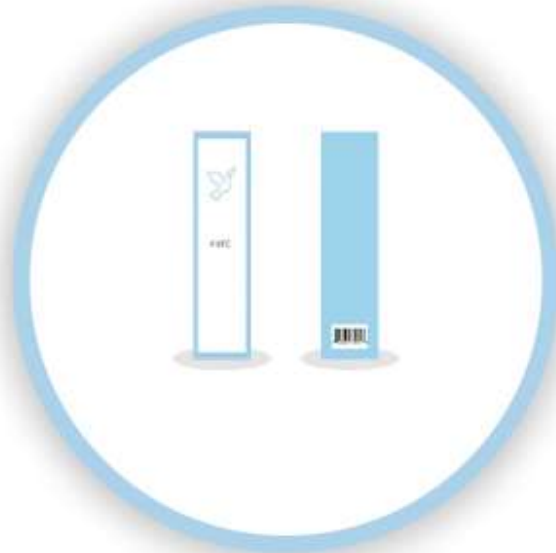

Attach the disposable Thermometer and hold against your forehead for 30 seconds

Step 04

Detach the disposable Thermometer and check that the temperature is between 35c to 39c to ensure that the Vaginal Liquid Membrane which is heat sensitive will perform optimally. If the temperature is under 35c take a very hot shower or bath

Step 05

**Take out the Vaginal Finger Costs Box # VFC
Wear the finger costs on your both hands**

Step 06

**Lie down on your back with your knees bent
and legs slightly apart**

Step 07

Take out a single Aluminium foil wrap from #VLM box Tear the aluminium foil and take out the Vaginal Liquid Membrane capsule

Step 08

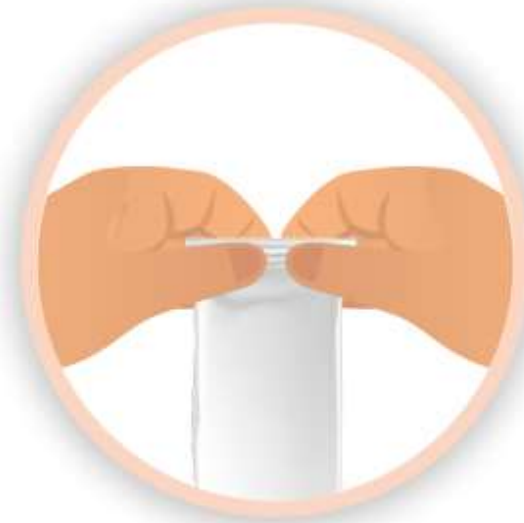

Use your other hand to hold open the fold of skin around your vagina and slightly

Step 09

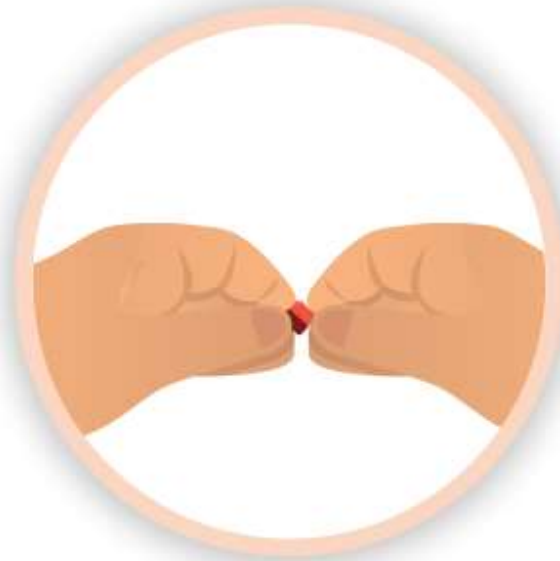

Insert the Vaginal Liquid Membrane capsule as deep as possible inside your vagina using your index finger

Step 10

**Take out a single Aluminium foil wrap from #VTM box
Tear the aluminium foil and take out the
Vaginal Translucent Membrane**

Step 11

Unfold the Translucent Membrane until it is fully open to approx 2cm X 2cm size

Step 12

**Place the unfolded Translucent Membrane
on your index finger**

Step 13

**Use your other hand to hold open
the fold of skin around your vagina**

Step 14

Insert the Vaginal Translucent Membrane as deep as possible inside your vagina using your index finger vagina

Step 15

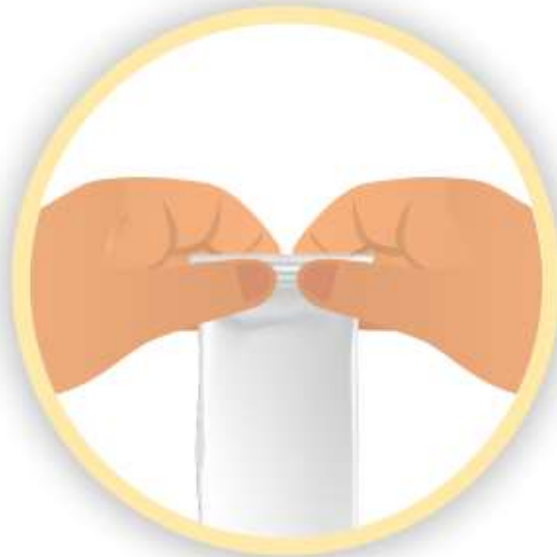

Take out a single aluminium foil out of the Vaginal Tightening Gel Box # VTG

Step 16

Lie down on your back with your knees bent and legs slightly apart.

Step 17

Tear the aluminium foil containing a Vaginal Tightening Gel Tube with Applicator.

Step 18

Remove the small top plastic cover from the tube.

Step 19

Slide out the sterile plastic sleeve applicator.

Step 20

Attach the sleeve applicator at the top of the tube where the small plastic cover was removed from and slightly squeeze it in.

Step 21

**Insert the tube as deep as possible inside your vagina
Squeeze the sleeve applicator all the way in until
the gel is dispensed inside the vagina.**

Step 22

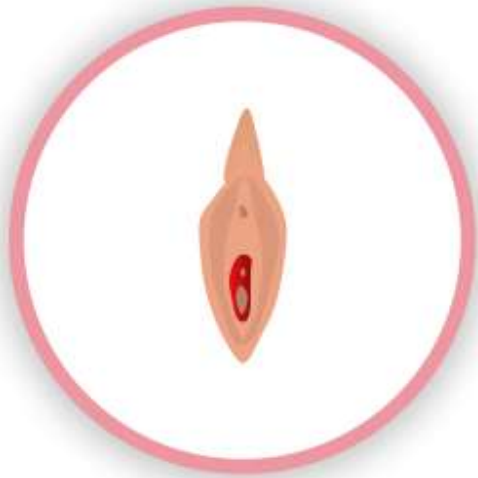

Remove the tube and applicator from the vagina and dispose.

Step 23

**Remove and Dispose the
Vaginal Finger cots and wash your hands**

After inserting the Vaginal Liquid Membrane capsule, Translucent Membrane and Vaginal Tightening Gel inside the vagina, the three products will slowly decompose and dissolve into a thick, membrane-like layer inside the vagina and will hold form. During the sexual intercourse it will give the effect of a very tight vagina and will wash when penetrated by the penis together with traces of blood-like colour on the penis and bedsheets
